

Oskar Hane

Personal data

First name:	Oskar	Address:	Borås
Surname:	Hane	E-mail:	oh@oskarhane.com
Nationality:	Swedish	Phone numbers:	0703787479
		Web:	http://oskarhane.com

Profile

Full stack developer and software engineer from Sweden who loves to code and design systems. Code design, security, API:s and system architecture is right up my alley. I am motivated by the love of the product and to gain new knowledge.

Introverted INTP, and it's a good thing.

My long career has made me a very skilled software engineer as well as a fast working system administrator.

I have some extra love for Javascript.

Work experience

Hane Labs AB	Founder / Freelancer	March 2011 - present
--------------	----------------------	----------------------

- Get clients for interesting projects.
- Manage project execution to ensure adherence to budget, schedule, and scope.
- Design, develop and modify software systems, using scientific analysis and mathematical models to predict and measure outcome and consequences of design.
- Coordinate recruitment or selection of project personnel.
- Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
- Train users and answer questions.
- Full Stack Development

Xpert Eleven AB	Tech Lead / Sysadmin / Front-End	February 2012 - April 2014
-----------------	----------------------------------	----------------------------

- Supervise the work of programmers, technologists and technicians and other engineering and scientific personnel.
- Develop and direct software system testing and validation procedures, programming, and documentation.
- Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
- Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.

- Design, implement, and maintain affiliate application and infrastructure components.
- System redundancy is vital.
- Millions of transactions will be handled (filtered, altered and enriched) every month.
- Refactor and improve maintainability of the codebase.

Studentis Group AB System Development Manager

July 2006 - March 2007

- Supervise the work of programmers, technologists and technicians and other engineering and scientific personnel.
- Develop and direct software system testing and validation procedures, programming, and documentation.
- Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
- Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.

Abovo Media AB Application/software developer

March 2002 - June 2006

- I keep www.student.se running!
- Brand development, web site traffic growth, web site UI and advertising revenue. Developed brand strategy and statistics systems.

Education

Linköpings University Masters of Science
Masters of Science Telecommunications

September 2000 - 2005

Stierneskolan High School
Cross country High School

September 1996 - June 1999
